PROFESSIONAL SUMMARY

Full-Stack Developer specializing in React.js and Laravel, with hands-on experience shipping responsive, SEO-friendly web applications — from business management systems and dashboards to e-commerce storefronts. BS Software Engineering graduate (Gomal University, CGPA 3.57/4.00) who writes clean, maintainable code and pairs it with technical SEO so products don't just work — they get found. Open to full-time, remote, and freelance opportunities.

CORE SKILLS

Languages: JavaScript, PHP, HTML5, CSS3
Frontend: React.js, Tailwind CSS, Bootstrap
Backend: Laravel, Node.js, REST APIs, MySQL
Tools: Git, GitHub, Figma, VS Code, Postman
Strengths: Responsive Design, Technical SEO, Local SEO

SELECTED PROJECTS

KickZone — Sports Management System

Final Year Project

LARAVEL · MYSQL · BLADE

github.com/kamran1272/kickzone

Final-year web platform for managing sports teams, events, schedules, news, and scores.
Implemented authentication with an admin structure and role-based access control.

Pharmacy Management System

LARAVEL · MYSQL

Inventory and sales tracking with automatic stock decrement on every sale.
Server-side validation on all mutations plus authenticated staff workflows.

Hospital Management Dashboard

REACT.JS · TAILWIND CSS

Appointment slot management built with custom React hooks.
Reusable table, modal, and form components with client-side routing for dashboard sections.

EXPERIENCE

NOC Voice Officer — King Revolution (PVT) LTD, Lahore

Nov 2025 – Mar 2026

NETWORK OPERATIONS · ON-SITE

Monitored network operations and coordinated incident response in a fast-paced NOC environment.

Web Developer Intern — Social Swirl, Lahore

Jun 2023 – Dec 2023

INTERNSHIP · CLIENT PROJECTS

Built and maintained responsive client websites with Laravel, React.js, and WordPress.
Helped ship e-commerce solutions with secure payment integration.
Improved site performance, cross-browser compatibility, and mobile responsiveness.
